Appendix - additional information about this document

Universities UCM alumni attended for their first degree after graduating UCM based on the UCM Alumni Survey 2017 conducted by the Research Centre for Education and the Labour Market.

451 UCM alumni filled out information about their first degree after graduating from UCM. 252 UCM alumni filled out the name of the institution in combination with the name of their first study programme completed after UCM. This data is summarised above per country.

431 UCM alumni filled out the programme name of their first study programme after UCM. The name of the University is often not included (missing data for 179 alumni). The list above is therefore based on 252 respondents. While analysing the data set, it seems that students did not stay in Maastricht for their next study programme after graduating UCM. However, many programmes which are listed without mentioning the name of an institution, are offered by Maastricht University, such as Public Policy & Human Development, European Studies of Science and Technology, European Public Affairs and Cultures of Arts, Science and Technology Research to name a few. Thus, it seems that Maastricht University should have been part of the top 10 University list if this data set would have been complete.
